

The Fortress

“The Fortress” series high-security, dual-user vacuum systems are like nothing you have seen before - these machines combine several unique and innovative features, providing the highest level of Security, Performance, Reliability, and Flexibility for your business.

Two Machines In One...

- Serves two customers, one on each side of the machine
- Each side of the machine can be built-up as a standard vacuum or a combination vacuum per your order
- Separate electrical and electronics for each side
- Reduces island / canopy installation size and cost

Flexible Design – Each Side Can Provide...

- Vacuum Only
- Vacuum & Air
- Vacuum & Three Fragrances
- Vacuum & Shampoo / Spot Remover
- Vacuum & Window Cleaner
- Vacuum & Other...

Ultra-High Security and Quality Fabrication...

- Available in stainless steel or mild steel (plated and powder coated with UV resistant powders to resist corrosion and fading)
- Medeco plug locks with screw latching system for tight door seals and maximum security
- Separately keyed electronics & money compartments
- Meter panels are bolted in and accessible only from inside main doors
- Internal dirt & filter access doors prevent tampering & unauthorized entry
- Concealed mounting feet

Eye-Catching Design...

- Large stature
- Available in stainless steel or powder coated mild steel (yellow, blue, or red)
- Colorful decals

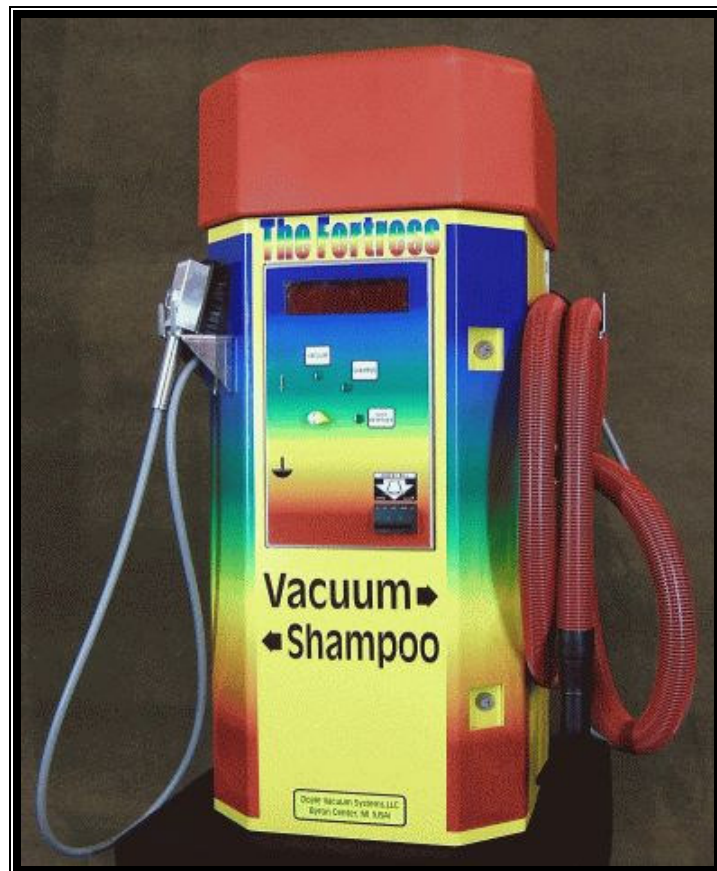

Enhanced Performance...

- A choice of standard or high-performance vacuum motors
- **3-Chamber vacuum tank** with separate dirt intake and collection chambers
- **Two pleated cartridge filters provide 16 ft² of filter surface area - with expanded-PTFE surface membrane, filters are 99.7% efficient at 0.3 microns**
- Significantly quieter operation

Advantages...

- **Maximizes** revenue potential
- **Minimizes** repairs and maintenance
- **Virtually eliminates** theft & damage costs
- **Secures** your investment & earnings
- **Maximizes** your profit

HIGH-SECURITY Dual-User Vacuum System

On one side - The Fortress as a combination vacuum, shampoo and spot remover machine with large scrolling display, bill acceptor, and coin acceptor.

Open the high-security main door on each side to expose the concealed dirt doors, and the separately locked electronics and money cabinet. Allows for routine cleaning without access to your money.
