Quality - Performance - Reliability

## 3-Chamber AIR-N-VAC

Coin-Operated 3-Chamber Air-N-Vac

**Coin-Operated or Free-Use  
Configurations Available**

On the back of the machine - the upper door opens to allow access to the filter/intake chamber – the lower door opens to allow access to the removable five gallon dirt bucket

### Standard Features:

- Stainless steel construction
- **3-Chamber vacuum tank** with separate dirt intake and collection chambers
- **Two pleated cartridge filters provide 16 ft<sup>2</sup> of filter surface area - with expanded-PTFE surface membrane, filters are 99.7% efficient at 0.3 microns**
- Large meter box, with internal frame for higher strength and security, will accommodate the packaging of various electronic options and/or allow future upgrades
- Meter panel door attached with piano hinge on one side and two heavy-duty Medeco cam locks (and extra lock tab) to protect your money and high-end electronics
- 5-Gallon bucket for dirt compartment
- 24-Volt control circuits
- Mechanical coin acceptor (Coin-Operated Models)
- Oil-less air compressor; available in 120 Volt or 240 Volt (single-phase).
- 25' Steel braided air supply hose
- Integral air trigger with pressure gauge
- 1.5" or 2.0" x 15' Crushable hose with duckfoot tool
- Fuse protected

### Available Vacuum Motor Options:

- (2) Standard Motors 120 Volts / 18 Amps
- (2) High-Performance Motors 120 Volts / 24 Amps
- (2) High-Performance Motors 240 Volts / 13 Amps
- ❖ **All Power Supplies are Single-Phase**

### Other Options:

- Electronic Coin Acceptors
- Dual-Coin Acceptors and Timers
- Bill Acceptors
- Display Timers
- Polyethylene Domes (Blue/Green/Red/Yellow/White)
- Coin Counters
- Last Coin Alert Horns
- Lock Shroud for Dirt Doors

Dimensions: 26.0" Wide x 26.0" Deep x 52.0" Tall  
Weight: Approximately 165 lbs.
